

How to make a bird seed feeder

1. Pour 1/2 a cup of flour, 2 tablespoons of corn syrup and 1/4 cup of water into a bowl.
2. Add 2 cups of bird seed
3. Mix together using a wooden spoon
4. Lay a piece of baking paper on to a chopping board and place the cookie cutter on top
5. Press the bird seed mixture into the cutter
6. Use a straw to make a hole. Be sure not to make the hole close to the top or the ornament will break.
7. After a couple of minutes carefully pull off the cutter.
8. Leave to dry for as long as you can (roughly 4-6 hours).
9. Thread a piece of string through the hole, tie in a knot and hang in the tree.
