

## How to make a lollipop plant pot

(From a recycled tin can)

1. Decorate your lollipop sticks with paint, pens or whatever you fancy. Leave them to dry.
2. Take 2 rubber bands and place them around a recycled tin can, making sure it's a snug fit. Do one band at the top of the tin and one at the bottom of the tin.
3. Take one of your decorated lollipop sticks and stick and place it underneath the rubber bands. Continue doing this all the way around the can until it is covered.
4. To hide the rubber band, wrap a piece of ribbon around the can and cut it a few inches longer. Pull it tight around the can and tie in a bow or knot, trim off any extra ribbon.
